

# IRF WORKSHOP / ASSESSMENT

If you are a river guide that's been guiding for a few years and would like to gain an international qualification, then this is the course for you. Over the period of five days, we will assess you and your skill set in all the key elements of guiding so that you can walk away with one or more qualifications.

Since 1998 Guides and rafting operators around the world have been joining the "IRF" (International Rafting Federation) and promoting the standards of the "GTE" (Guide training and Education) program which are now recognized in 53 countries around the world.

"Come and join the family"

**Dates:** 19<sup>th</sup> to 23<sup>rd</sup> March 2023

**Location:** Cathedral town, High Atlas Mountains. Morocco

**River:** Ahansel, class 3-4

## Assessments for:

- GTE
- Guide
- Trip Leader
- Safety kayaker

## Instructors:

Zach Basset has been guiding for the past 11 years, covering all areas of the rafting industry. He has guided in many countries and simply enjoys passing on his knowledge to other river enthusiasts.

Alex Aitken is the owner of River Gurus and is also IRF and has a wealthy international experience in all areas of Guiding and operational procedures.

We have put together this course to give you the student the opportunity to gain one or more international qualifications on some fun white water in the high Atlas mountains of Morocco.

### **Course overview explanation:**

The IRF workshop is a very intense course in which you the student can gain a lot of great information from highly experienced instructors.

Each day we will run a couple of trips from Cathedral to Tiloguite, a nice class 3 section of river, 14km long. Days four and five we raft 120km from Cathedral to the lake Bin Ouidane so we get to navigate on some continuous class 4 white water for around 60km. In the evening time we will have lectures.

You as a student need to "show off" your skills both on and off the water to the best of your abilities to gain the qualification that you desire.

### **Inscription closure:**

We will be closing the inscriptions for the workshop on the 1<sup>ST</sup> March 2023 and at this point any participant will receive a detailed program of the course, where you will be able to see what lectures you will be giving so that you have time to prepare for them.
